# Session Goals

By the end of the session after having participated in a group activity, you'll be able to:

## ***In the MURAL environment:***

- Navigate boards (moving across boards and zooming in and out of the content.)
- Copy, paste, and edit objects
- Drag icons and shapes onto boards
- Select how to use and turn off the drawing tool
- Be aware of the timer

## ***In the WebEx training environment:***

- Join break out rooms
- Anticipate the experience of navigating back and forth between your small group activity and the whole group environment.
- Use the annotation tool to note your opinion

# Annotating

The screenshot shows the Cisco Webex interface with a session title bar displaying "Cisco webex Session No. 920 904 267 | Attendee ID: 133". Below the title bar are tabs for "Quick Start", "Session Info", "Pre-session slides", and "Sketch". A toolbar contains various drawing tools, including a square shape tool. A dropdown menu is open, showing options: "Square Shape", "Oval Shape", "Mark", and "X Mark". The "Mark" option is highlighted with a blue bar and a checkmark. A mouse cursor is pointing at the "Mark" option. To the right of the menu, the text "Select the check mark" is displayed. Below the menu, a blue square icon is followed by the text "Make sure the color is set to a color that is dark enough to see."
